SUMMARY

Skilled FrontEnd Developer adept in HTML, CSS, JavaScript, and React JS, eager to contribute to the team by crafting engaging, intuitive websites for an optimal user experience.

PROJECTS

Ubunfolio   Link to Demo

Introducing Ubunfolio: where the essence of your portfolio meets the sleek functionality of a Linux terminal. With its innovative design and development, Ubunfolio transforms the traditional portfolio experience into a captivating journey through the world of design and development.

Job-Nxt   Link to Demo

This is a versatile software designed for both businesses and students, offering a platform for job applications. It utilizes a machine learning model trained to analyze submitted resumes and provide rankings based on pre established criteria. This aids recruiters in efficiently identifying the most suitable candidates for job positions.

Mov4U   Link to Demo

Developed a website similar to IMDB that allows users to access the latest movie updates and view detailed information about any movie. Increased accessibility of movie updates by creating a user-friendly website.

E-Commerce   Link to Demo

Our e-commerce website is a sleek and user-friendly platform built using React.js, designed specifically for shoe enthusiasts. With an emphasis on speed and efficiency, our website ensures seamless browsing and faster loading times, providing users with a hassle-free shopping experience.
